

OUR STATEMENT

Frontier Management announces COVID 19 Update

Frontier Management is taking precautionary measures, following guidance from the Centers for Disease Control and Prevention (CDC), which has released guidelines for employers and businesses to contain the spread of the virus. Our number one priority is the health and safety of our residents, patients, and associates.

For those of you who are in communities or have family members in communities, we have raised our preventative measures to limit all visitors to our communities which means we have taken the next step and are only allowing necessary medical providers and visitation for residents at end of life into the communities for the indefinite future.

These restrictions are based on State and National Assisted Living Association recommendations as well as Company protocols.

We continue with surveillance for staff and anyone with entry into the communities. Anyone presenting with any signs of illness will not be allowed to enter the community.

Our employees are trained to recognize any signs of respiratory illness, and should we see any symptoms of illness we will be ensuring that our residents are referred for additional testing and treatment upon recognition of an illness.

Our infection control protocols have been fully implemented and our communities are taking the necessary precautions to mitigate the risk of the transmission of the virus.

We are in regular communication with our local health departments, monitoring updates from the CDC, and taking direction from state licensing agencies.

About Frontier Management

Frontier Management, LLC. was founded in 2000 and currently operates 108 Retirement, Assisted and Memory Care communities in 16 different states. The company was founded on the principle that it could and should be different. To learn more about Frontier Management, LLC. please visit, www.frontiermgmt.com
